## TOP SAFETY AT TOP SPEED

More Volvo initiative for your safety.

### Safety belt feature

The Volvo Safety Belt may be either worn by all or by some occupants of all the Volvo cars. The seat belts are built into the seat and attached to the front of the car. The belts are attached to the front of the car. The belts are attached to the front of the car.

Increased average speeds bring greater responsibility for the driver himself as well as for other road users. This fact has always been foremost in the planning and design of the Amazon.

### Good view is all-important

A clear view of the road ahead is your greatest ally. In the Volvo Amazon, the driver has an unobstructed view of more than a quarter of a mile ahead. The windshield is made of safety glass and is held in place by rubber seals. The windshield is made of safety glass and is held in place by rubber seals.
